POLYVISION e³ CERAMICSTEEL
The world's most popular writing surface
PolyVision e³™ CeramicSteel writing surfaces are made for busy offices and boisterous classrooms, providing a super-smooth writing surface that erases like magic and won’t scratch, stain or fade for as long as it is in use—guaranteed.

PolyVision e³ is the most popular writing surface for chalkboards and whiteboards, providing superior writability, durability and erasability.

**Technical Information**

- Can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon
- Optimum erasability—no ghosting and easy to maintain
- Scratch, bacteria, chemical and fire resistant—will not combust or release toxic fumes in the event of fire
- Greater color contrast
- 99.9% recyclable and Cradle to Cradle Certified™ Silver
- Standard and premium color finishes available
- Colorfast—will not fade
- Safe and clean, releases no harmful chemicals into the environment

Delivering long-lasting quality with environmental responsibility, PolyVision e³ CeramicSteel is the global choice for whiteboards and markerboards that provide a clean performance and great writing experience for years to come. A smooth surface and resistance to chemicals, scratching and wear ensures unbeatable durability, unmatched erasability and low maintenance throughout a lifetime of use.

PolyVision e³ CeramicSteel chalkboard surfaces combine an excellent erasability with wear resistance, durability and product lifetime warranty. Our smooth matte finish chalk surfaces will not leave annoying “ghost writing” and yield less chalk dust for a cleaner, healthier environment.

Get creative by adding permanent magnets, or have it delivered with colorful printed patterns, lines, logos or other graphics. Our chalkboard surfaces are a breeze to clean with wet or dry cloths.

Surface Options: The right surface for every need.

The PolyVision e³ CeramicSteel product line offers surface options to meet the precise needs of your environment and product use. For instance, you can specify a super-smooth high-gloss finish for superior dry-erase performance or opt for reduced-glare or low-gloss (matte) surfaces to showcase projected images with exceptional clarity.

Ask your PolyVision representative which e³ surface is right for you. Each one is made for life—and your specific needs.

Our eVision

Today it can be tough to fairly assess what constitutes environmental authenticity. Specifying Cradle to Cradle Certified™ products ensures that PolyVision’s materials live up to the world’s toughest standards for human and environmental health.

PolyVision e³ CeramicSteel is safe and clean, contains no VOCs and is 99.9% recyclable.

Don’t forget, specifying PolyVision e³ CeramicSteel is a healthy business move.

Our surfaces will help you deliver competitive differentiation in the marketplace and meet the growing demand for green building practices. It leads the market in quality and sustainability—so you can, too!
Environmental Policy: PolyVision strives for continuous improvement in all areas of environmental stewardship – responsible use of raw materials and natural resources, design processes and operation of all facilities – to protect, replenish, and restore the communities in which we live and serve.
