Unmatched for sleek, smooth consistency, PolyVision CeramicSteel is made to endure—beautifully. It is the most popular writing surface and covers a world of architecture and infrastructure, defying scratches, stains, weather, pollutants and fire. For uniformity, aesthetics and durability, PolyVision surfaces are the choice for schools, hospitals, walkways….wherever your imagination—and life—takes you.

PolyVision guarantees it.
MEET THE WORLD’S MOST POPULAR WRITING SURFACE

When it comes to the rigors of classrooms and offices, e³™ CeramicSteel simply outperforms. It won’t scratch, stain or fade—guaranteed. It’s also more durable, delivering unmatched erasability and a consistently smooth writing experience, which means higher-quality communication for educators.

PolyVision e³ can be written on with dry-erase, semi-permanent, water-soluble or permanent marker, chalk, pen or crayon without damaging the surface. It is safe and clean, and releases no harmful chemicals into the environment—99% recyclable and the only globally Cradle to Cradle Certified® Silver surface of its kind.

Chalkboards
Our super-smooth matte finish chalk surfaces won’t leave annoying “ghost writing” and yields less chalk dust for a cleaner, healthier environment.

Dry erase boards
Choose from high gloss, low gloss and projection surface options to suit your lighting needs with minimal glare.

PolyVision e³ is warrantied for as long as it is installed and in use.

Made to last like no other surface
> Smooth writing surface
> Optimum erasability
> Scratch, fire, bacteria and chemical resistant
> Standard and premium color finishes available
> Colorfast—will not fade
> Minimal surface/light distortion for less glare
> Cradle to Cradle Certified® Silver

PolyVision e³ CeramicSteel
> Exceptional writing performance
> Environmentally certified
> Everlasting durability
Years from now, your building or tunnel will look as good as the day you built it—guaranteed.

PolyVision a³™ CeramicSteel is the globally preferred architectural finish for hospitals, offices, rail stations, undergrounds, jet ways, escalators, toilet partitions—the list is endless. It is the fabricator and architect’s choice for sleek beauty, consistency and crisp, smooth edges. No matter what you’re designing, PolyVision CeramicSteel supports your aesthetic vision across the toughest performance measures—including your own.

Equally important is knowing that you have a surface that consistently delivers. PolyVision CeramicSteel applies easily to installation materials with smooth-as-glass uniformity.

**Durability meets versatility. The only limit is your imagination.**

Available in sheets cut to any size, coils or laminated panels. A wide variety of standard and premium color finishes is available to meet the needs of any project. Add printed graphics to transform ordinary, functional structures into visual expressions of beauty that will never fade.

When comparing leading surface materials with PolyVision, ask if they meet these critical performance measures:

> Can it resist graffiti?
> Will it retain its vibrant color and graphics?
> What about dirt, grease and bacteria?
> How about weathering?
> Does it serve the worldwide push for smart, sustainable materials?
IMADE FOR LIFE
