

The Modernized Canvas

a³[™] CeramicSteel Serif[™]

With a slim profile, clean edges and rounded corners, Serif delivers a blend of design, materiality and functionality for busy collaboration spaces in corporate and educational environments.

Slim + Smooth

Designed to promote creativity and facilitate teamwork, Serif is a thin CeramicSteel panel mounted with standoff mounts in a satin chrome finish. Precision cut edges are sealed with a durable lacquer, while rounded corners provide a modern, premium look. Panels can be enhanced with digitally printed artwork and rich accented edges in a variety of colors to create one of a kind writing surfaces.

Embellished Functionality

Available in three fixed panel sizes, Serif can be configured horizontally or vertically. Pre-drilled mounting holes and standoff mounts make it easy to install— and create an appearance of floating on the wall.

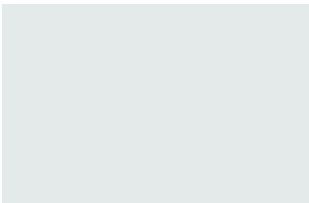

Combining the finest qualities of porcelain and steel, Serif panels are made with PolyVision a³ CeramicSteel. The smooth, glasslike surface is easy to clean, magnetic and resistant to scratches, bacteria and graffiti. Available in our brightest white yet, this surface delivers crisp clarity with no shadowing effects, making reading and writing easier than ever.

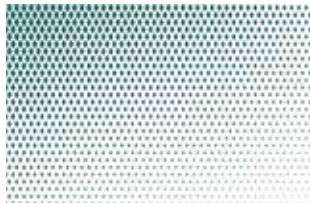

Now your CeramicSteel surface is as modern and slim as ever.

Standard Colors* + Sizes

Dimensions	Thickness	Weight
47 in x 47 in / 1185 mm x 1185 mm	0.25 in / 6,5 mm	14,5 kg / 32 lbs
